

# AUTONOMOUS THREAT SWEEPER

Air Cover for Your Security Operations

**130hrs** → **170hrs**

Did you know that the average security team at a mid-sized company spends anywhere from **130 - 170 hrs chasing 115 threats every month\***; many of which were present on corporate networks anywhere from days to months?

That's where cyber rapid response comes into play. Securonix Autonomous Threat Sweeper (ATS) combines the best of all worlds — human analyst-driven threat intelligence curation, threat hunting, and detection engineering together with automated post-hoc detection.

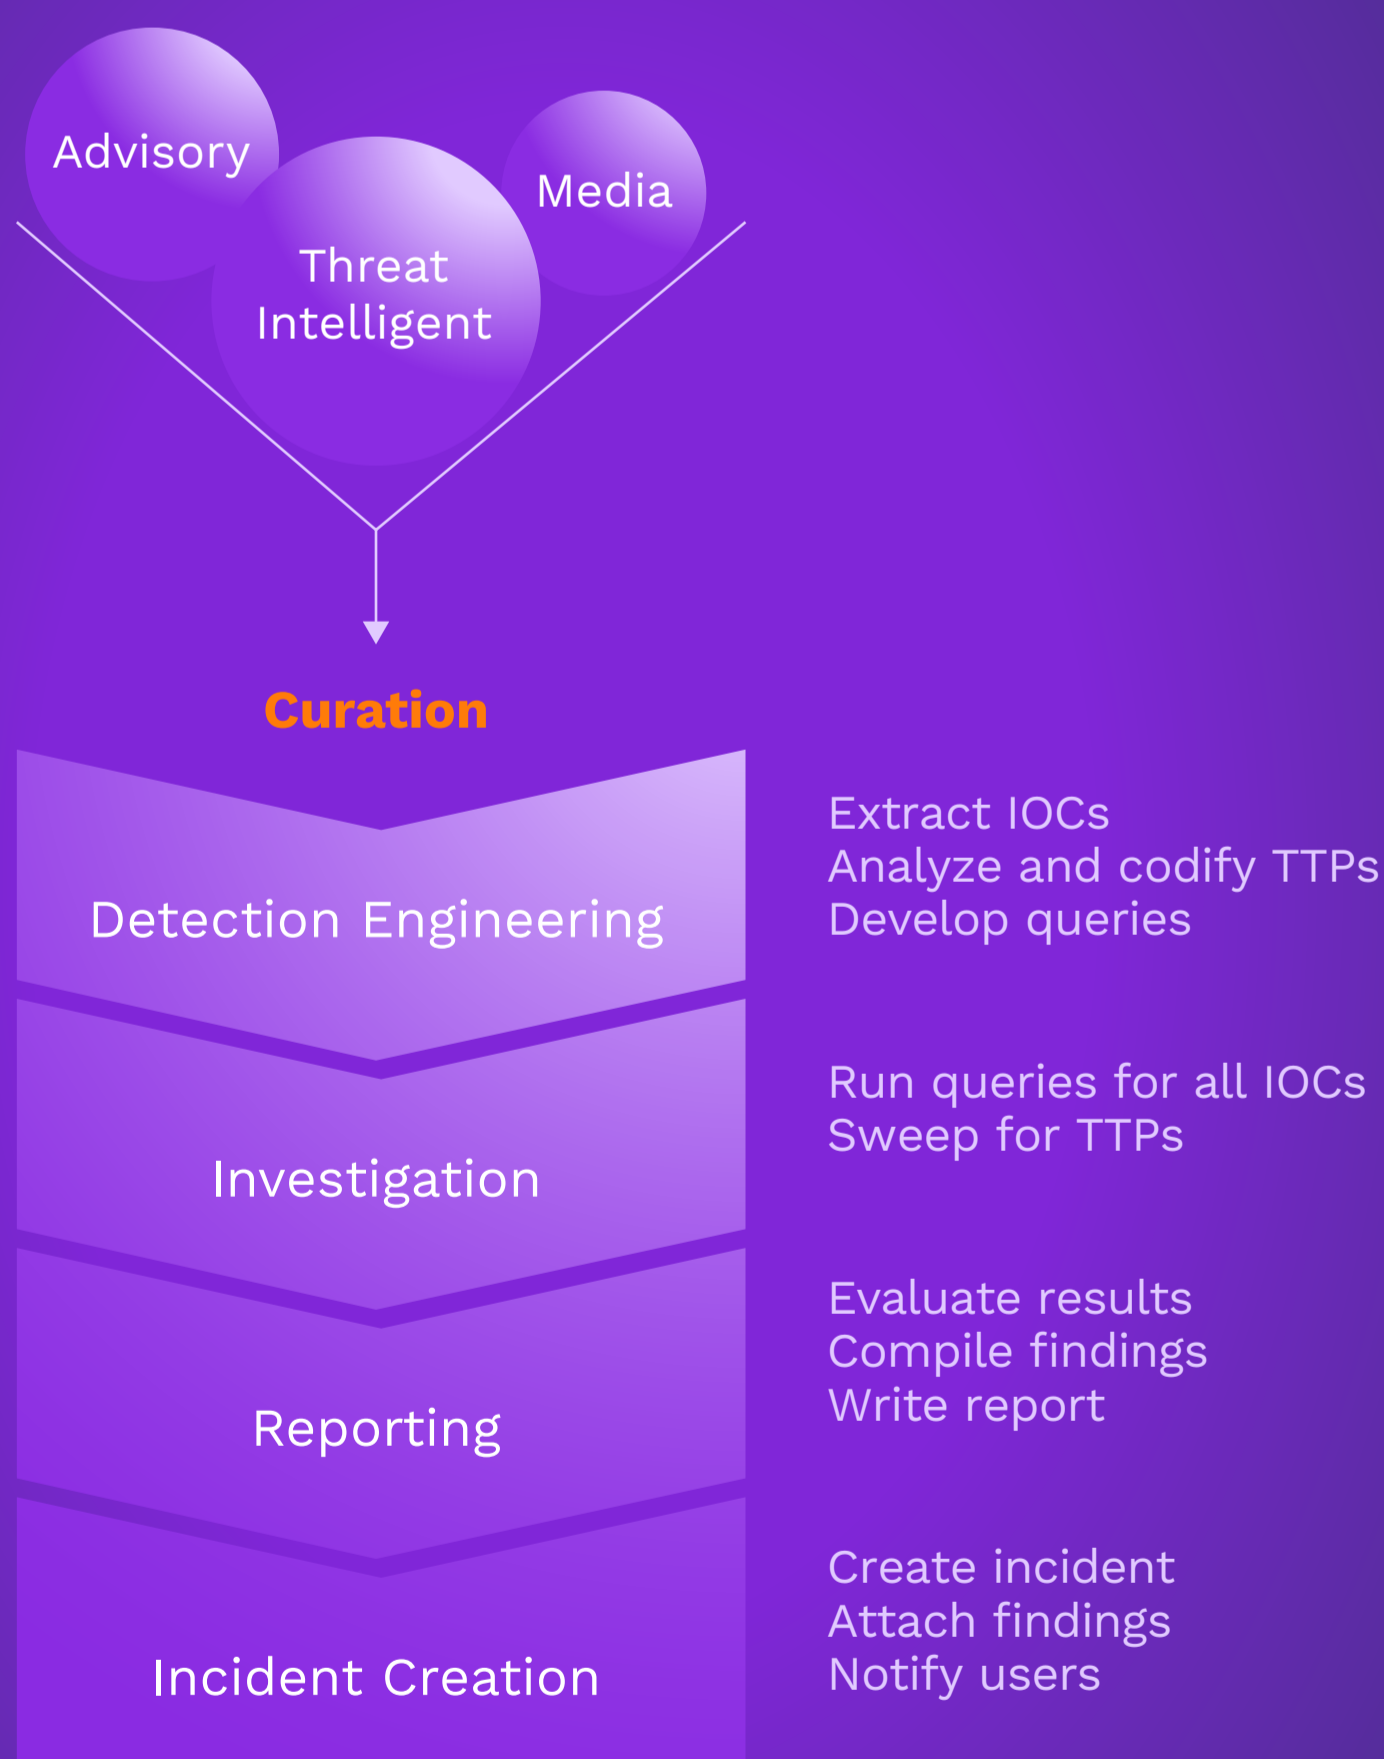

## HERE IS HOW IT WORKS

The Securonix Threat Labs team provides air cover for your SOC by staying on the forefront of threat research.

## CYBER RAPID RESPONSE

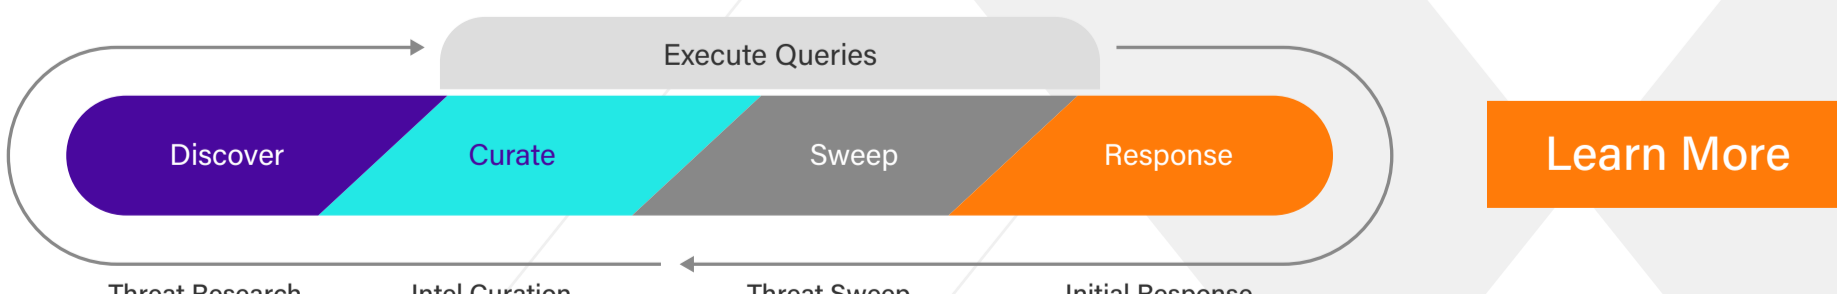

ATS acts as your own dedicated cyber rapid response team, slashing the time and resources needed to track and eliminate new and emerging threats by 50 percent or more\*. This allows your security team to focus their investigative resources on the threats that matter most.

On average per month  
**115** Newly discovered threats  
**4289** IOCs & TTPs  
**Total 130-170** Manhours saved

\*Data gathered by Securonix Threat Labs

ATS is empowering SOC teams to stop more threats with less manpower.

### About Securonix

Securonix is redefining SIEM for today's hybrid cloud, data-driven enterprise. Built on big data architecture, Securonix delivers SIEM, UEBA, XDR, SOAR, Security Data Lake, NDR, and vertical-specific applications as a pure SaaS solution with unlimited scalability and no infrastructure cost. Securonix reduces noise and prioritizes high fidelity alerts with behavioral analytics technology that pioneered the UEBA category.
