

## SECURONIX SERVICES SUPPORT TERMS

Effective Date: February 25, 2026

These Securonix Services Support Terms form a part of the Agreement and govern Securonix's provision of support services. Enhanced Support and Focused Support are offered as paid upgrades from the default Standard Support provided with the procurement of Services. These Securonix Services Support Terms may be updated from time to time, and the current version will be updated online.

Securonix provides a web-based support portal for submitting cases and tracking case status. Case priorities are assigned based on the technical importance of the problem and handled based on case priority levels as outlined below. When submitting a case, Customers will select the priority for initial response by logging the case online, in accordance with the priority guidelines set forth below. Securonix Customer Support may change the priority if the issue does not conform to the criteria for the selected priority and will provide Customers with notice (electronic or otherwise) of such change. Support is provided by Securonix's support centers around the world. Support will be delivered by the technical support team during their regional hours of operation.

**Customer's Obligation to Assist**

If Customer submits a case pursuant to these Securonix Services Support Terms, Securonix may require Customer's reasonable cooperation. The Customer's failure to provide the requested cooperation may prevent Securonix from resolving such case as submitted by Customer. Case status updates may be delayed if Securonix requires and has requested a response from the Customer to address the incident and Customer's response is delayed.
